Communication/Education Materials Updates

- Updates to Brochures and educational materials

- Update “Good News” story of process to date on cleanup activities

- Develop a New CAG member communication.

- Update/Evaluate means to communicate effectively with the public.

-

# Advisory Signs/Communication

- **Goal of Updates to Communication Materials:**
  - Mitigate risk from the site contaminations (direct exposure from soil, fish contamination, etc)
  - Accurate and Current information about exposures to risks from the Site.
  - Evaluate and update/improve how information is making it out into the community.
  - Collaborative multi-Agency effort (EGLE/DHHS/EPA/MDNR/MDARD) along with CAG to develop format and mode of method to communicate message.
- **Action Item: CAG Subcommittee.**
  - Assist in the development of the methods to communicate about the exposure routes but also update/progress message.
    - Multi-pronged approach featuring multiple methods of communicating to a variety of audiences.

End 😊
